A SAMPLE OF STEVE'S SPEAKING TOPICS

Stop Driving and Start Guiding

- Learn how the power of why only works if you also focus on relationships with your teams
- Understand the difference – and importance – of getting the best FOR your people versus FROM your people
- Understand why our natural tendency to drive as a leader undermines team performance, as well as how and why we must shift to guiding instead

Accountability, Flipping the Switch

- Explore the transformative power of accountability, from being a source of inspiration to a tool for empowering individuals to own their actions and achieve extraordinary results
- Learn the three keys to creating an environment that fosters self and mutual accountability, enhancing motivation and productivity
- Leave inspired and equipped to harness accountability for driving unparalleled success in personal and professional spheres

Success Through the Language of Influence

- Discover the crucial components of trust and learn how to integrate them into your daily interactions to build solid workplace relationships
- Master the subtle yet powerful techniques to enhance influence, boost collaboration, and drive organizational success
- Navigating uncertainty, acquire practical tools and strategies to confidently tackle ambiguity and foster a resilient mindset in the face of change

Is Your Culture Costing You?

- Defining Culture: Define your company's culture clearly and practically, setting a clear benchmark for organizational behavior and values
- Bridging Cultural Gaps: Develop strategies to effectively transition from your current culture to your desired aspirational culture. How to align your company's core values and its everyday practices
- Actionable Cultural Transformation: Focus on genuine employee needs versus trends. Foster a culture that supports both team values and business objectives, ensuring an authentic and positive workplace
