Transform Your Organization:

Develop Leaders That People Want to Follow

Steve Lowisz
CEO & Chief Guide

What is it costing your organization by not developing your leaders?

At the Lowisz Leadership Institute, we understand the high stakes of neglecting leadership development. Picture your organization without strong leaders:

- Teams stumble
- Productivity plummets
- Your best people walk out the door

Engagement drops, turnover skyrockets, and you're left footing the bill. Meanwhile, competitors who invest in their leaders gain market share and attract top talent. Are you willing to let your organization's potential slip away?

The Lowisz Leadership Institute:

We can help you develop individuals, leaders, teams, and cultures that drive real results!

REDUCE TURNOVER

- Increase engagement and slash employee turnover.
- Empower leaders to engage and inspire their teams, fostering trust and accountability.
- Save time and money while building a cohesive, productive workforce.

IMPROVE PERFORMANCE

- Elevate performance across your organization.
- Guide leaders to master the right skills and behaviors.
- Achieve your goals faster and outperform the competition with a motivated, high-performing team.

REGAIN YOUR TIME

- Streamline your leadership approach, empowering your team to take ownership.
- Free yourself from daily micromanagement and focus on strategic thinking and high-impact decisions.

Wondering how we're different from thousands of other leadership companies?
Three simple words:

GUIDE, DON'T DRIVE™

Stop Driving and Start Guiding™

is built on four simple yet powerful leadership principles:

1

Shifting from getting **FROM** our people to **FOR** people to drive results.

2

Moving from **MANIPULATION** to **INFLUENCE**.

3

Getting to **KNOW** our people and **GROW** people in ways they have never experienced.

4

Learning how **NOT** to solve problems for our team members.

Experience the Transformation

Our method creates an environment where **your team chooses to give their best, even when you're not around.**

Not because they have to, but because they want to. And when they decide otherwise, the rest of the team steps in to help them succeed or pivot into the best role for them.

Experience the transformation for yourself with our **STOP DRIVING & START GUIDING™** framework. Transform disengaged employees and dysfunctional teams into high-performance powerhouses, boosting overall performance and profitability.

Our Offerings

WORKSHOPS

- Leadership development workshops tailored to drive team performance and results.
- Practical tools that leaders can immediately apply to foster growth.

AND MORE!

What to Expect From Our Workshop

We understand the struggle with high turnover, team dysfunction, and less-than-ideal results. Like you, we wanted a way to create high-performing teams. After investing in countless ineffective solutions, we developed a practical, experience-based leadership framework that delivers sustained change.

At LLI, we believe in hands-on learning that empowers your team from day one. Our workshops aren't just about teaching — they make sure everyone applies what they've learned before they leave.

1

PRACTICAL APPLICATION:

Start using new skills right away.

2

STRUCTURED FOLLOW-UP:

Support that continues at 30, 60, 90, and 180 days.

3

ENGAGEMENT CHALLENGES:

Online challenges to reinforce learning and track progress.
