

The Perfect All Purpose Apron

I wear aprons a lot, because I make lots of messes. I do a lot of surface design on fabric before I stitch it into art quilts, I dabble in other sloppy crafts, and I dig in the dirt (garden). I designed this apron to cover most of my clothing, but still be comfortable and utilitarian. It's easy to customize it to meet your needs, and make you look fabulous!

The patterns on the following pages will help you to customize the Perfect All Purpose Apron that will work best for YOU~
