

Amy Barrett-Daffin

iPad Pro Case (11.25" x 12.5") with a front pocket for stylus

Case Components

iPad Pro Case Dimensions 11.25" x 12.5" (front with flap 16.5")

iPad Pro size 8.5" x 11.25" x .30"

Strip closure 11.25" x 1.5" (place strip 1.5" below top of case)

Front pocket 9" x 11.75" (if you want to fit in standard paper sheet)

Materials

Two pieces of fabric

1 roll of kraft-tex

1 scrap of kraft-tex

1 large piece of felt

5 pack of TAP (uses 1 sheet)

Image for transfer

Directions

Image Transfer using Transfer Artist Paper

1. Select fabric to TAP image onto
2. Select image and print onto TAP
3. Trim image for clean, crisp edges
4. Iron onto fabric using a silicone release paper
5. If including text remember to flip image horizontally so that it will be right reading

Case Construction

1. Cut a piece of kraft-tex 11.5" wide and 28.5" long
2. Cut length of felt liner 11.5"x26"
3. Cut a piece of kraft-tex (complimentary color) 1.5"x11.5"
4. Trim pocket fabric and liner 9.5"x12.25"
5. Sew pocket right-sides together, leave 2" open at the bottom to turn right side out
6. Press pocket on the back (do not iron on front without silicone release sheet or transfer will smear)
7. Select a complimentary color thread so that it pops on the kraft-tex
8. Line up pocket onto front of case and stitch on two sides and the bottom (close up the open edges)
9. Stitch felt onto the top and bottom of the case
10. Fold case shut, line up closure strap 1.5" from the top (use clips to secure pieces)

11. Stitch up both sides of the case with two sets of stitches and stitch across the bottom for added detail
12. Trim the fold so that it has a 1" tip and trims down 1.25" from the top of the case so that the top folds and inserts easily(like an envelope).

That's it you are done!
